

The logo features a central lime green circle containing the word "RIMINI" in a bold, sans-serif font. The letters "R", "I", and "M" are red, while "I", "N", and "I" are white. The central circle is surrounded by a sunburst of colorful dots in shades of blue, purple, red, and green. At the bottom of the image, there are two horizontal rows of dots: the top row consists of purple dots, and the bottom row consists of green dots.

Fluxus 2014-2021 - Tiberius Bridge Bimillenary

It has been around for 2 thousand years and is one of the “pieces of history” that most characterize the city of Rimini. It is one of the best preserved Roman monumental bridges in the world and among the most important ones. Tiberius Bridge, which is the symbol of the city, is the strategic point from which depart the roads to the North, the consular roads Popilia and Emilia, headed respectively to Piacenza and Ravenna and opening up to Central and Eastern Europe. As relevant today as it was then, the bridge connects the city centre to its oldest district dedicated to San Giuliano, one of the most characteristic areas of the city, linked to seaside tourism and the memory of the film director Fellini. “Fluxus” is the program that will bring together the celebrations of the 2000 years since the beginning of the construction of Tiberius Bridge, which will start in spring 2014 and will unfold over a period of seven years. An exceptional opportunity to combine events, culture, and structural interventions to reconnect the sea, old town, and hinterland into a new bridge to the world.

Rimini's Drawing Biennale - from Parmigianino to Kentridge, from Hugo Pratt to Fellini

Italy is one of the historical homelands of drawing, certainly one that has enhanced and expanded the horizons of meaning and aesthetics, elevating it to an independent discipline after having been an art within an art. In the spring of 2014, Rimini organizes the “zero edition issue” of the Rimini's Drawing Biennale, a festival that spans centuries and fields of application, promoting a wide range of exhibitions, workshops, performances, and video exhibits all centred around drawing but starting from the most varied angles. Ancient folios from the Uffizi museum and contemporary works from major foundations and private galleries will be exceptionally on loan.

The topic of drawing will also bring up the subjects of painting, sculpture, architecture, design, fashion, comics, theatre and cinema, finding extreme ideals ranging from the sinopia of the fresco by Piero della Francesca, preserved in the Malatesta Temple, to the donation by Renè Gruau and the Book of Dreams by Federico Fellini, a permanent City Museum exhibit.

Rimini, Borgo San Giuliano

Festa de' Borg event - XIX edition

Rimini's tradition is sustained by the very life of its ancient districts, such as Borgo

San Giuliano, separated from downtown by the bimillenary Tiberius Bridge and once inhabited mostly by fishermen. Here, every two years, a popular event comes to life along the neighbourhood's little streets and piazzas. It is the "Festa de borg," which tells the neighbourhood's life story. For the occasion, the little squares and venues will be transformed into theatres and stages with live entertainment, street theatre, exhibitions, music, not to mention food and wine, to savour in every way the atmosphere of the Rimini from the past.
